Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 6, 14, and 25-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims recite in the preamble an imaging apparatus but does not recite image forming means or components.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 25-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Tomoyori et al. (4,806,969). Tomoyori et al. teaches a fusing device having a heat roller and first and second pressure rollers (figure 5; column 5, line 19 – column 7, line 9).

Allowable Subject Matter

5. Claims 1, 6, 14, 27-28 are would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims. Claims 29-36 are allowed.

Response to Arguments

Art Unit: 2852

6. Applicant's arguments filed 1-10-2005 have been fully considered but they are not persuasive. Applicant argues that the claims are definite and should not be rejected. However, the preamble to these claims recites an image forming apparatus and does not recite image forming means. If applicant recites an image forming apparatus, then applicant must recite limitations that support this preamble. If applicant is not claiming an image forming apparatus, then the preamble needs to be changed.

Applicant argues with respect Tomoyori that it does not teach a print path between the hot roller and the first pressure roller and a fusing circuit that branches between the print path after the first pressure roller and passes between the hot roller and the second pressure roller. However, Tomoyori teach fixing an image on the upper surface of the sheet using heat roller 43 and the first pressure roller 45A and then fixing the lower image of a double-sided print with the heat roller 43 and the second pressure roller 45B. The claims remain rejected as discussed above (column 5, line 19 – column 7, line 9).

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2852

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
